ANUJ TIWARI
Machine Learning Engineer

☎ 8368751774 @ anshtiwari314@gmail.com 🔗 LinkedIn.com/in/anujtiwari3141 📍 Ghaziabad,india

SKILLS

Backend

sciket-learn seaborn numpy

matplotlib streamlit pandas

node js web-sockets (socket.io)

django (basic) mongodb

mysql Express Js

Frontend

Html 5 css 3 vanilla js

webrtc (Peer js)

React js (Advanced) material-ui

Bootstrap (Intermediate)

Electron js

React-Native (Intermediate)

Other Tech

vscode pycharm

Linux(ubuntu) kali-linux

parrot-os

Amazon-aws (advanced IAAS)

docker (basic) Java (Intermediate)

C (basic) JS (advanced)

heroku & RAILWAY (PAAS)) ssh

INDUSTRY EXPERTISE

Deliever the task in time

Reasearch about new Idea

Find a way to solve a particular problem

OBJECTIVE

Aiming to becoming a professional Machine Learning Engineer that able to solve complex problems & capable of finding new solutions to a problem statement.

EXPERIENCE

Senior Full Stack Developer

Vitt.ai (2 yrs Exp)   📅 01/2022 - Present

Jokanomy tech solution pvt ltd is a startup working to solve problem statements arise in finance sector. they have a B2B product which is capable of answering any questions related to finance.

Mentioning major projects or achievements during this time
· fix all the bugs present in old aditya birla web chat bot (in REACT Library)
· the new web chat-bot fot aditya birla wealth that is live at https://wealth.adityabirlacapital.com/
· created a library for android as well as for ios in REACT NATIVE
· created Responsive website which is live at vitt.ai (working for every screen device) from provided figma or canva design
· found a solution to Record audio snippets in Browser send to server in definite time Intervals
· created a VIDEO CONFERENCING APP for the team so they can integrate their existing solution to it named JARVIS project. it is live at vitt-meeting.netlify.app
· VIDEO CONFERENCING APP is built on top of trending technologies as like WEB SOCKETS & WEB RTC with screen sharing functionality
· created an App for HDFC so that they can analyze the call between their Relationship manager and clients
· Integrated soft phoning solution to company web app provided by twilio
· Integrate VAD (Voice Activity Detection) model in web app to detect the audio at client end implemented in VIDEO CONFERENCING APP
· created a node server which concatenates smaller audio snippets & create a Big File

EDUCATION

Graduation (B.tech)
INDERPRASTHA ENGINEERING COLLEGE   📅 2018 - 2022

Intermediate
DSR Modern School   📅 2016 - 2017

PROJECTS

Movie Recommender System
Self learning   📅 05/2023 - 06/2023   📍 Bengaluru

this project suggest u movies based on your previous selection
· used sciket-learn library to create this project
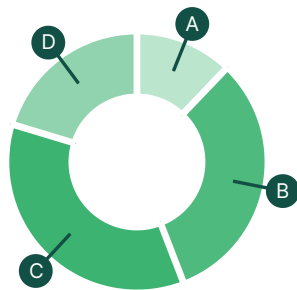

Email spam classifier
Self learning   📅 06/2023 - 07/2023   📍 Bengaluru

this project is created to get basic understanding how email spam classifiers are worked
· used sciket-learn regression models to create this project

MY TIME

- **A** Other activities (like playing sports & chilling)
- **B** learning & enhancing my tech stack
- **C** Reasearching about new discoveries
- **D** exploring tech stack

REFERENCES

PROJECTS

Laptop Price detection

Self learning   📅 07/2023 - 08/2023   📍 Bengaluru

the model is capable of prediction price of laptops with 95% accuracy
- provided inputs are RAM, DIsplay type , HARD-DIsks & other some info
- library used to create this proect is sciket-learn

Netflix clone

Self learning   📅 08/2021 - 06/2021   📍 Bengaluru

created to get hands of knowledge in React & its libraries
- this project has similar interface as netflix with playable trailers
- the project is created with IMDB movies api & connecting with youtube trailer library gives u access to play trailers if available
- https://loving-knuth-79509c.netlify.app/

Authentication system

Self learning   📅 07/2021 - 08/2021   📍 Location

this project is created to get idea of navigation & routing in React
- the library that used here is react-router dom
- for the backend i used google firebase
- https://anshtiwari314.github.io/react-firebase-authentication-system/#

STRENGTHS

⭐ **Continous & Consitent to learning**
its kind of my hobby to keep update myself towards latest inventions & discoveries ,technologies & with updated libraries

⭐ **Innovative**
sharing new ideas & thoughts with team, helping finding new & better ways to solve a partular problem

LANGUAGES

English   Native   Hindi   Proficient
